INTERSCHOLASTIC TRIAL HEATS.

Western Military Academy Team Preparations for the next athletic event importance locally, the Interscholastic seague field day, which will take place to-norrow afternoon at the Pastime grounds, lave been concluded. The preliminaries in

League field day, which will take place tomorrow afternoon at the Pastime grounds,
have been concluded. The preliminaries in
all the events but two were run off yesterday, the half mile and quarter being the
two contests omitted.

It begins to look as though the cadets
from Western Military Academy will make
a strong fight for first honors in this year's
meet, as the showing made by the atnietes
from this institution in yesterday's contests was exceptionally good, having men
to quality in every event with the exception of the high jump.

The 100-yard dash was the first event on
the programme yesterday, and Builens of
W. M. A., Powell of Manual, and Sieber
of High qualified in the first heat, Builene
got off well in the first heat, and won from
Powell and Sieber with yards to spare.
Sieber got a poor start, and was unable to
overhaul the leaders, but ran a good race.
The second heat brought out Ott, of W.
M. A., Wells of Smith and Winkle of High,
who finished in the order named, and as
it had been decided to run only five men in
the finals on Thursday, Referee Delaney allowed Selber to qualify for the finals, as he
had competed in the fastest heat.

In the 20-yard dash, Selber had little
trouble in winning his heat from Rutter and
Wells, both of Smith, in easy fashion.
Bullene has fine form for a sprinter, and
did not half exert himself in the 220-yard
race, yet he made the fast time of 32.

In the shotput, Ricker of Manual made
the best showing, with his put of 30 feet
inches, with Wulff of the High team a
close second. Builene of Western, Grutchmacher of Manual, England of Western and
Kinsey of High also qualified for this
event.

The Smith Academy team has no representatives in the shot put.

Kinsey of High also qualified for this event.

The Smith Academy team has no representatives in the shot put.

In the pole vault only six men are entered, and after each man had cleared the bar at eight feet Referee Delaney allowed the six men to qualify for the finals. The men who qualified for this event are as follows: Wulff of High, Laichinger of Manual, Scullin of Western, Nickerson of Smith, Moore of Smith and Jones of High.

A large field was out to try for the high jump, but only five men qualified, as Johnson of Manual and Scullin of Western, who were trying for sixth place, went out on the same jump. The following men qualified for the finals in the high jump: Laichinger of Manual, Selber of High, Powell of Manual, Schmitz of Smith and Hodges of Smith. The height, when Scullin and Johnson went out, was sixty inches. In the 120-yard hurdles only four men were allowed to qualify for the finals, and the athletes in

will be held on the Kaw, all the officers of the organization were selected from representatives of that city. Frank J. Smith, the only man who can boast of having attended every one of the twenty-four shoots, held under the auspices of the association, was elected president. Doctor Plank was elected vice president; Paul Frank, secretary, and Robert Elliott, treasurer. Each of these men has had a wide experience in

this event had to do some speedy running

event.
In the baseball throw England again looks like a sure winner, with his throw of 296 feet and 5 inches. BOTH SHAMROCKS TO COME OVER. Lipton Wants to Continue the Trial Races Right Up to the Cup Races.

Glasgow, May 28.-After consulting with

Mr. Fife, Sir Thomas Lipton has decided to

send the Shamrock I to America with the challenger in order that he may continue

the trial races right up to the date of the cup races. This will cost an additional 14,000, but Sir Thomas is confident that the advantage to be gained justifies the expense. Captain Wringe will command the Shamrock I, with the same crew that has sailed her here this season.

New York Priest Holds Services at 2:30 A. M. for Newspaper Men and Others.

REPUBLIC SPECIAL New York, May 28.-The paster of St. Andrew's Catholic Church thinks he has solved the problem of how to persuade newspaper men and other night workers to attend church. Nervous Exhaustion

"Two years ago this summer I was in a miserable condition as the result of hard work. I was completely run down, pale and losing flesh, and so nervous that I could not sieep or even get rest. It was dreadful to go to bed at night all worn out and lie awake for hours with nervousness. If I did fall salesp it was to wake up in the morning as tired as when I went to bed.

"My head troubled me a great deal, too, both with pain and dizziness. If I stooped over at any time I would be so dizzy I could hardly see or keep from falling down. I was troubled somewhat with indigestion at this time, but the nervousness was the greater trouble. If I became a little excited my hands would shake so I could hardly hold anything in them. I employed our best physicians, but not one of them did me any permanent good.

"I had, of course, read of Dr. Williams' Pink P Pale People, but had never taken any of them tai Mr. Robert Van Kuren, of Jordan, recommended them to me so strongly, from his own experience with them, that I got some and before the first box was used up I began to feel that they were doing me good. I kept on taking them according to directions and got from them the only real, permanent benefit I have had from any remedy. It did seem so good to get a night's sleep and to be refreshed by it. I am a firm believer in Dr. Williams' Pink Pilis for Pale People and I do, and shall, recommend them to my friends. I generally keep a box in the house to take in case I feel a little run down."

this event had to do some speedy running to get placed.

Scullin of Western Military Academy won the first heat from a good field, running in fine form, and he should be a hot contender for first honors in this event on Thursday. Pittyman of the Smith team won the second heat, and Hodgen, also of Smith, won the third heat, and it was decided that the second men in each heat would have to run over, the winner to qualify for the finals. Waiter Randall of High School won the fourth heat, for second men, and will be a contestant in this event on Thursday afternoon. In the 220 hurdles, only first men and second man in the fastest heat qualified for the finals. The first heat was won by Scullin of Western, and Laidely of Smith was second. This being the fastest heat of the three, Laidely qualified for the finals. Hodgen of Smith won the second heat, and Bullene of Western won the third heat.

The broad jump between Sleber of High and Bullene of Western should be one of the features of the interscholastic meet, as both athletes are very evenly matched, and their performances yesterday afternoon were both exceptionally good.

Wulff of High looks like easy money in the hammer throw as his performance in the trials yesterday of 104 feet and 7 inches was a good one, and he will be a hard man to beat in this event in the finals.

England of Western made an excellent throw with the discus yesterday of 39 feet and 6 inches, but, unfortunately, stepped out of the ring and his throw was not counted, but at that he qualified for the finals and did not exert himself in the least. Should he learn how to stand in the ring properly he should have no trouble in winning this event.
